

CTI Analysis

- flight CTI trends.

steps in CTI coincide with solar events.

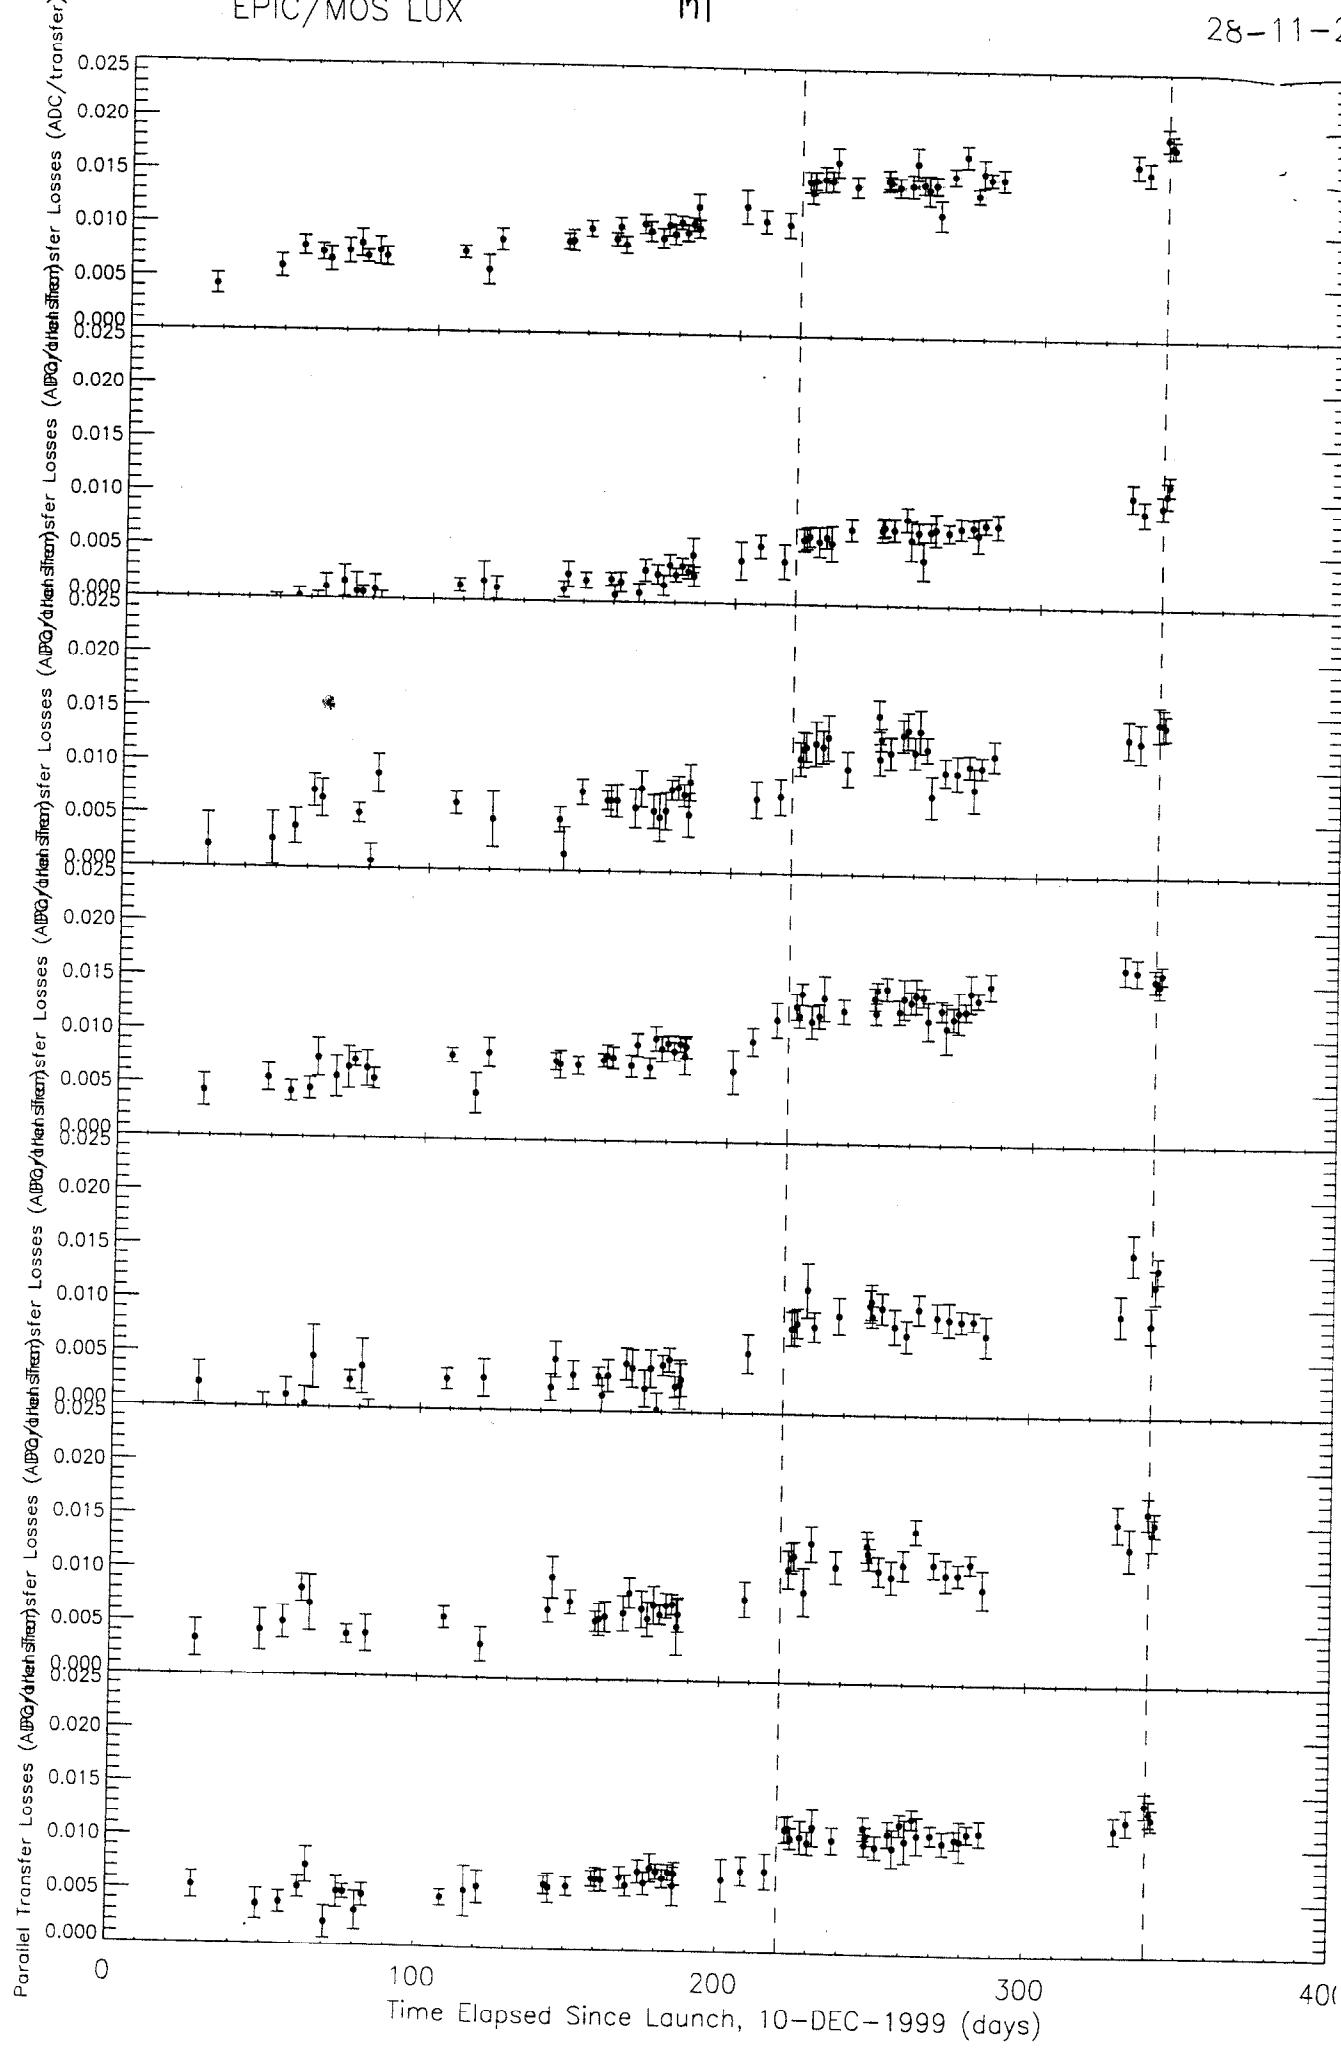

the rate of change is generally reduced
more recent times.

- laboratory Irradiation. (protons).

Bright Pixel Analysis

- In-flight pixel trends.
 - major new-pixel event in MOS 2.
 - happened between orbits 0107 / 0108.
 - damage in MOS 2 appears localised.
- Laboratory Irradiation. (protons)
 - data on 4 devices is contradictory.
