

XMM-Newton CCF Release Note

XMM-CCF-REL-78

EPIC Bad Pixels

B. Altieri

June 1, 2001

1 CCF components

Name of CCF	VALDATE	List of Blocks changed	CAL VERSION	XSCS flag
EMOS1_BADPIX_0012	2000-12-13T12:00:00	BADPIX		YES
EMOS2_BADPIX_0012	2000-12-13T12:00:00	BADPIX		YES

2 Changes

This version 12 is a replication of the second database of the on-board MOS Bad Pixel table (13 Dec. 2000) plus inclusion of 5 (high-PHA hot pixels) zones.

3 Scientific Impact of this Update

Should correctly interpret what was uplinked to on-board bad pixels list.

4 Estimated Scientific Quality

5 Expected Updates

Whenever there is a new release of badpixels for on-board the CCF file will be updated. Not-uplinked bad pixels which are found to be stable should be added in the future.
